Your scope and next steps.

- 12-month subscription, paid every 3 months. Each payment covers 3 months.
- Employees: 72 across your group, counted once each. Your plan includes 60.
- Additional employees: 12 at \$3.00 each / month = \$36.00 / month. This is included in your monthly estimate.
- Extra employees are charged once at the highest rate for your selected Crew plans, without a subscription discount. If added during your subscription, you pay for the remaining time. The added capacity stays payable until the current subscription period ends. Reducing employee numbers does not automatically create a credit.
- Payroll country: United Arab Emirates (AE). We'll confirm payroll availability, local legal requirements and setup for your country before you start.
- We'll confirm what your specialist extensions cover and their included usage in your proposal. Charges above those limits are not included in this estimate.
- Taxes and one-time setup are not included in the subscription amounts. Setup will be confirmed separately before you start.
- This is an estimate, not a final quote. We'll confirm current prices and plan availability before you start.
- Pricing effective 23 Aug 2026. Reopen your estimate to see current prices.
